

# THE *Campbell's* COMPANY

**2025 Corporate Responsibility Data Update**

## Cautionary note

This report contains information about our sustainability and social impact goals, targets, initiatives, commitments, and activities. Unless otherwise noted, this report covers initiatives and performance metrics associated with our operations for our 2024 fiscal year, spanning July 31, 2023 through July 28, 2024.

Sovos Brands, Inc., which we acquired on March 12, 2024, is not included in the contents of this report. We will provide information about our plans for integrating Sovos into our programs and commitments in future communications.

These efforts involve certain risks and uncertainties, such as changes in our business (i.e. acquisitions, divestitures, or new manufacturing or distribution locations), the standards by which achievement is measured, the assumptions underlying a particular goal, and our ability to accurately report particular information. Actual results could differ materially from our stated goals or the results we expect. Changing circumstances, including evolving expectations for sustainability and social impact generally, or to specific focus areas or changes in standards or the way progress or achievement is measured, may lead to adjustments in, or the discontinuation of, our pursuit of certain goals, commitments or initiatives.

This report does not include details on our financial performance. Details on our financial performance can be found in the investor relations section of our website and in our public filings available through the U.S. Securities and Exchange Commission (SEC). This report may use certain terms that certain third-party entities refer to as “material” in connection with certain sustainability and social impact matters. Used in this context, this term is distinct from, and should not be confused with, the terms “material” and “materiality” as defined by, or construed in accordance with, securities or other laws and regulations. Matters considered

material for purposes of this report may not be considered material in the context of our financial statements, reports with the SEC, or our other public statements, and the inclusion of information in this report is not an indication that such information is necessarily material to us in those contexts.

This report has been prepared with reference to the Global Reporting Initiative (GRI) Standards. We have also aligned this report to the general principles of the Sustainability Accounting Standards Board (SASB) for food and beverage companies and have prepared a limited Climate-related Financial Risk Disclosure. Our GRI Content Index, and SASB and Climate risk disclosures are available in this report and on our website. We have engaged with Apex Companies, LLC to provide limited assurance in relation to specific fiscal 2024 environmental data. Details on our limited assurance activities are available on our website.

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our sustainability and social impact goals, targets, initiatives, commitments, and activities as well as our future operations and long-term strategy. These forward-looking statements rely on a number of assumptions and estimates that could be inaccurate and which are subject to risks and uncertainties. The factors that could cause our actual results to vary materially from those anticipated or expressed in any forwardlooking statement include impacts of factors described in our most recent annual report on Form 10-K and subsequent SEC filings. We disclaim any obligation or intent to update the forward-looking statements in order to reflect events or circumstances after the date of this report.

# Goals and performance<sup>1</sup>

Category	Target	Progress
 <b>Animal welfare<sup>2</sup></b>	Source 100% cage-free eggs by the end of CY2025	 44%
	Source chicken meat from birds that have been raised in improved environments, including litter and enrichments, by the end of CY2024	 100%
 <b>Community<sup>3</sup></b>	Increase food access for 100,000 residents in Campbell's communities by fiscal 2025	 116,540
	Provide nutrition education to 50,000 people to encourage healthy living in Campbell's communities by fiscal 2025	 61,126
	Invest \$5 million to improve the school food environment for children by fiscal 2025	 \$5,505,514
	Engage 70% of Campbell's employees in community-based activities by fiscal 2025	 54%
 <b>Responsible sourcing</b>	Contribute 75,000 traditional and skills-based employee volunteer hours across Campbell's footprint to increase the capacity of our community partners by fiscal 2025	 62,903
	Responsibly source 100% of priority raw materials by fiscal 2025	 99%
	100% of priority raw materials are traceable to country of origin by fiscal 2025	 100%
 <b>Climate</b>	Reduce absolute Scope 1 and 2 greenhouse gas (GHG) emissions 42% by fiscal 2030 from a fiscal 2020 base year and reduce absolute Scope 3 GHG emissions from purchased goods and services and upstream transportation and distribution 25% within the same time frame <sup>4</sup>	 Scope 1 and 2: -22%  Scope 3: -23%

Category	Target	Progress
 <b>Sustainable agriculture</b>	Source 50% (by volume) of each plant-based priority ingredient from suppliers engaged in an approved sustainable agriculture program by fiscal 2025	 Potatoes: 99%  Wheat: 68%  Tomatoes: 96%
 <b>Water<sup>5</sup></b>	Reduce water use by 20% on an absolute basis by fiscal 2025 as compared to fiscal 2017	 -2%
 <b>Waste<sup>5</sup></b>	Reduce the amount of waste sent to landfills by 25% on an absolute basis by fiscal 2025 as compared to fiscal 2017	 -5%
	Reduce food waste by 50% on an absolute basis by fiscal 2030 as compared to fiscal 2017	 -1%
 <b>Packaging</b>	Transition 100% of packaging to recyclable or industrially compostable designs and materials by CY2030	 92%
	Increase the use of post-consumer recycled content and incorporate 25% post-consumer recycled content into polyethylene terephthalate (PET) bottles by CY2030	Aluminum: 42%    Steel: 35% Corrugate: 44%    Plastic: 5% Glass: 8%  PET Bottles: 12.4%
	Drive increases in recycling rates through standardized on-pack labeling by including the How2Recycle label on 100% of in-scope packaging by CY2022	 100%
	Expand access to recycling and advance the development of collection and recycling infrastructure by building and investing in partnerships with peers and industry groups	Association of Plastic Recyclers Poly Coated Paper Alliance Sustainable Packaging Coalition The Recycling Partnership

<sup>3</sup> Campbell's communities are where the company has operations, including corporate offices, manufacturing facilities, and major sales offices. Progress against community goals is cumulative since fiscal year 2020.

<sup>4</sup> Our Scope 3 Science Based Target includes emissions from ingredients, packaging, and upstream transportation.

<sup>5</sup> We continue to trail our water and landfill goals. We are assessing the next generation of goals for these categories and will provide updates in future reporting.

<sup>1</sup> Table represents goals that are current or were active during the reported fiscal year. For important detail and context, please refer to the Data Tables and associated footnotes found in the Appendix of this report. Note that the quantitative metric reflects progress in or up to fiscal 2024 while the bubbles reflect percentage of goals completed.

<sup>2</sup> See our [Animal Welfare Guidelines and Addendum](#). Data reflect sourcing progress as of the last day of each fiscal year.

# Data tables

## Trusted food

	FY2022	FY2023	FY2024
<b>Nutrition</b>			
% of products and sales from our nutrition focused foods	52% of products, representing 52% of sales	54% of products, representing 54% of sales	52% of products, representing 54% of sales
% of M&B products with at least half a serving of vegetables	51%	51%	50%
% of snacks products with <200 calories per serving	88%	87%	87%
Average cost of nutrition focused foods (NFF) per serving, compared to entire portfolio	\$0.58 (NFF), \$0.65 (overall portfolio average)	\$0.70 (NFF), \$0.78 (overall portfolio average)	\$0.69 (NFF), \$0.76 (overall portfolio average)
% of M&B products that meet at least one federal nutrition program criteria	72%	73%	74%
% of M&B family meal recipes that cost \$3 or less per serving	54%	50%	48%
% of portfolio that meet our nutrition guidelines for product development	68% of products, representing 69% of sales	68% of products, representing 72% of sales	67% of products, representing 71% of sales

	FY2023	FY2024
<b>Animal welfare<sup>1</sup></b>		
Cage-free eggs	24%	44%
Gestation crate-free pork	100%	100%
Higher broiler chicken welfare	100%	100%
Global Animal Partnership (GAP) Step 2 chicken for Pacific Foods	100%	100%

<sup>1</sup> See our [Animal Welfare Guidelines and Addendum](#). Data reflect sourcing progress as of the last day of each fiscal year.

## Vibrant communities

	FY2022	FY2023	FY2024
<b>Community</b>			
Total giving (USD in millions)	\$56.4	\$71.8	\$67.8
In-kind giving <sup>1</sup>	\$51.5	\$67.0	\$62.5
Foundation giving	\$2.7	\$2.4	\$2.7
Corporate contributions	\$2.2	\$2.4	\$2.6
Residents with increased food access	8,753	29,478	28,214
Residents provided with nutrition education	1,180	12,935	15,645
School food investment	\$ 1,077,000	\$ 1,228,673	\$ 1,304,041
% Campbell's employees engaged <sup>2</sup>	28%	39%	54%
Traditional and skills-based employee volunteer hours	9,761	15,518	24,171
<b>Responsible sourcing</b>			
Priority raw materials responsibly sourced <sup>3</sup>	98%	99.9%	99%
<b>Responsibly sourced by priority raw material</b>			
Cheese	100%	99%	99.5%
Chicken	100%	100%	100%
Chocolate	99.8%	99.7%	99.6%
Palm oil	100%	100%	94%

<sup>1</sup> In-kind giving is defined as total product donations.

<sup>2</sup> Data are cumulative and reflect the percentage of our workforce that has been engaged in community-based activities at least once since FY2020.

<sup>3</sup> Responsibly sourced means the supplier has disclosed country of origin and undergone a SMETA audit if the country of origin and material/supplier are deemed high risk.

	FY2022	FY2023	FY2024
<b>Responsible sourcing (continued)</b>			
Paper packaging	100%	100%	99.1%
Potatoes	99.9%	100%	100%
Tomatoes	96%	100%	99.7%
Wheat	100%	100%	100%
Priority raw materials traceable to country of origin	100%	100%	100%
<b>Traceable to country of origin by priority raw material</b>			
Cheese	100%	100%	100%
Chicken	100%	100%	100%
Chocolate	100%	100%	100%
Palm oil	100%	100%	100%
Paper packaging	100%	100%	100%
Potatoes	100%	100%	100%
Tomatoes	100%	100%	100%
Wheat	100%	100%	100%

## Thriving people

	FY2022	FY2023	FY2024
<b>Occupational health and safety</b>			
Total reportable incident rate (TRIR)/200,000 hours	1.32	1.17	1.30
Lost time incident rate (LTIR)/200,000 hours	0.30	0.32	0.34
Employee fatalities	0	0	0
Environmental notice of violations (NOVs)	19	14	18
Environmental fines (USD)	\$4,458	\$1,500	\$25,456

## Healthy environment

	FY2022	FY2023	FY2024
<b>Energy use</b>			
Electricity use (mmbtu)	2,064,540	1,917,544	1,960,744
Fuel use (mmbtu)	8,293,171	7,828,089	8,052,541
Total energy use (mmbtu)	10,357,711	9,745,633	10,013,285
Energy intensity (mmbtu/metric ton of food produced)	3.15	3.33	3.10
Percent renewable of total electricity use	9%	8%	62%

	Baseline FY2020	FY2022	FY2023	FY2024
<b>Greenhouse gas emissions<sup>1</sup></b>				
<b>Total emissions</b>				
Location-based GHG emissions (metric tons CO <sub>2</sub> e)		676,982	656,088	671,508
Market-based GHG emissions (metric tons CO <sub>2</sub> e)	678,439	672,061	641,947	530,172
Location-based GHG intensity (metric tons CO <sub>2</sub> e/metric ton of food produced)		0.21	0.22	0.21
Market-based GHG intensity (metric tons CO <sub>2</sub> e/metric ton of food produced)		0.20	0.22	0.16
<b>Scope 1 (metric tons CO<sub>2</sub>e)<sup>2</sup></b>				
Location-based direct (Scope 1) emissions	471,188	461,968	446,423	465,711
<b>Scope 2 (metric tons CO<sub>2</sub>e)<sup>2</sup></b>				
Location-based indirect (Scope 2) emissions		215,014	209,665	205,797
Market-based indirect (Scope 2) emissions	207,251	210,093	195,493	64,461

<sup>1</sup> Please refer to our third-party limited assurance statement of select Healthy Environment metrics.

<sup>2</sup> Scope 1 and 2 was calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard. These data are assured.

## Healthy environment (continued)

	Baseline FY2020	FY2024
<b>Greenhouse gas emissions (continued)</b>		
<b>Scope 3 (metric tons CO<sub>2</sub>e)<sup>1</sup></b>		
Total indirect (Scope 3) emissions	6,066,396	4,969,415
Scope 3: Category 1 — <b>Purchased Goods and Services</b>	4,403,812	3,428,578
Scope 3: Category 2 — <b>Capital Goods</b>	13,362	3,454
Scope 3: Category 3 — <b>Fuel- and Energy-related Activities</b>	102,522	100,231
Scope 3: Category 4 — <b>Upstream Transportation and Distribution</b>	665,401	577,568
Scope 3: Category 5 — <b>Waste Generated in Operations</b>	144,253	163,331
Scope 3: Category 6 — <b>Business Travel</b>	5,986	7,583
Scope 3: Category 7 — <b>Employee Commuting</b>	23,395	23,949
Scope 3: Category 8 — <b>Upstream Leased Assets</b>	Not calculated	Not calculated
Scope 3: Category 9 — <b>Downstream Transportation and Distribution</b>	435,845	428,137
Scope 3: Category 10 — <b>Processing of Sold Products</b>	Not calculated	Not calculated
Scope 3: Category 11 — <b>Use of Sold Products</b>	Not calculated	Not calculated
Scope 3: Category 12 — <b>End-of-Life Treatment of Sold Products</b>	230,598	228,045
Scope 3: Category 13 — <b>Downstream Leased Assets</b>	41,222	8,537
Scope 3: Category 14 — <b>Franchises</b>	Not calculated	Not calculated
Scope 3: Category 15 — <b>Investments</b>	Not calculated	Not calculated

<sup>1</sup> Scope 3 was calculated in accordance with the WRI/WBCSD GHG Protocol Corporate Value Chain (Scope 3) Standard. These data are unassured.

<sup>2</sup> Please refer to our third-party limited assurance statement of select Healthy Environment metrics.

	Baseline FY2017	FY2022	FY2023	FY2024
<b>Sustainable agriculture</b>				
<b>% by volume engaged in a sustainable ag program</b>				
Potatoes		100%	100%	99%
Tomatoes		95%	94%	96%
Wheat		32%	44%	68%
<b>Water use<sup>2</sup></b>				
Total water withdrawn (m <sup>3</sup> )	22,800,911	23,839,277	24,275,874	22,457,617
Total water discharged (m <sup>3</sup> )		20,968,696	21,185,490	18,669,442
Total water consumed (m <sup>3</sup> )		2,870,581	3,090,384	3,788,175
Water intensity (m <sup>3</sup> /metric ton of food produced)		7.26	8.30	6.95
<b>Packaging</b>				
Recyclability of portfolio, by weight		94%	92%	92%
<b>Post-consumer recycled (PCR) content, by packaging type<sup>3</sup></b>				
Aluminum		50%	50%	42%
Corrugate		38%	29.8%	44%
Glass		35%	35%	8%
Steel		35%	35%	35%
Plastic		0%	2.6%	5%
PET Bottles		12.6%	12.6%	12.4%
<b>Portfolio with How2Recycle label on pack (%)<sup>4</sup></b>				
M&B		75%	100%	100%
Snacks		84%	100%	100%

<sup>3</sup> For FY2022 and FY2023 where actual supplier packaging data were not available, we reported averages based on reputable industry sources by packaging type. As a result of efforts to expand the collection of supplier packaging data, we calculated PCR content using actual supplier information by packaging type on a prospective basis beginning FY2024. In some instances where current supplier data was not provided, we used the prior year data as a proxy. Where no information was available, we assumed 0% recyclability.

<sup>4</sup> H2R program active only in U.S. and Canada. Products without the logo may appear in stores until current inventories of product and packaging materials are depleted. Certain packaging materials are excluded due to feasibility and/or suitability to carry the H2R logo.

## Healthy environment (continued)

	Baseline FY2017	FY2022	FY2023	FY2024
<b>Waste generation<sup>1</sup></b>				
Total waste generated (metric tons) <sup>2</sup>		202,410	213,364	216,272
Waste to landfill (metric tons)	33,184	56,207	45,484	31,513
Waste to incineration/controlled combustion (metric tons)		2,140	2,261	1,012
Waste recycled (metric tons)		50,817	49,337	51,787
Food waste diverted to other destinations (metric tons)		92,946	110,984	128,951
Total waste diverted from landfill (metric tons)		146,202	167,880	184,759
Landfill diversion rate (%)		72%	79%	85%
Total waste intensity (metric tons of waste generated/metric ton of food produced)		0.06	0.07	0.07
Regulated waste generated (metric tons) <sup>3</sup>		91	67	185
Food waste generated (metric tons) <sup>4</sup>	33,958	27,938	34,307	33,765

<sup>1</sup> Please refer to our third-party limited assurance statement of select Healthy Environment metrics.

<sup>2</sup> FY2024 data reflect improvements in data gathering and tracking methodologies. Where actual data were not available, estimated data were used based on EPA factors.

<sup>3</sup> Regulated waste refers to any waste regulated by federal or state laws, including but not limited to hazardous waste.

<sup>4</sup> Campbell's defines its food waste commitment in accordance with the FUSIONS Definitional Framework for Food Waste; as such, we exclude animal feed and biomaterial processing from the scope of our goal.

	Baseline FY2017	FY2022	FY2023	FY2024
<b>Waste generation<sup>1</sup>(continued)</b>				
Total food waste (metric tons)		105,339	114,338	129,440
Food waste to animal feed		64,839	79,132	94,483
Food waste to aerobic digestion		9,094	9,632	12,542
Food waste to biomaterial processing		12,561	899	1,192
Food waste to landfill		12,392	3,354	488
Food waste to land application		1,754	13,940	5,108
Food waste to anaerobic digestion		4,029	6,647	14,566
Food waste to controlled combustion		669	733	158

# GRI Index

The Campbell's Company has reported the information cited in this GRI content index for the period July 31, 2023 - July 28, 2024 with reference to the GRI Standards

Disclosure	Disclosure Title	FY2024 Response
<b>General disclosures</b>		
2-1	Organizational Details	<a href="#">Company Overview</a>
2-2	Entities Included in the Organization's Sustainability Reporting	<a href="#">Company Overview</a>
2-3	Reporting Period, Frequency, and Contact Point	We are reporting on FY2024 (July 31, 2023 – July 28, 2024). We issue a full report biennially, with updates annually. We value and welcome feedback from interested stakeholders. Contact Stewart Lindsay, Chief Sustainability Officer, One Campbell's Place, MS131, Camden, NJ 08103. You may also contact us via our dedicated CSR Feedback Email Address: <a href="mailto:csr_feedback@campbellsoup.com">csr_feedback@campbellsoup.com</a> .
2-4	Restatements of Information	<p>Fiscal 2023 Scope 1 emissions was restated to include additional natural gas usage for one site, resulting in a 2% increase.</p> <p>In accordance with the WRI/WBCSD GHG Protocol Corporate Value Chain (Scope 3) Standard, fiscal 2020 Scope 3 emissions were restated for the following:</p> <ul style="list-style-type: none"> <li>• Category 1 - Purchased Goods and Services: recalculated to incorporate supplier data and reflect updated lifecycle emission factors used to calculate ingredient and packaging emissions, updates to packaging film volumes, and the disposal of the Emerald Nuts business in 2023</li> <li>• Category 4 - Upstream Transportation and Distribution and Category 9 - Downstream Transportation and Distribution: recalculated to add additional legs of transportation not previously captured.</li> </ul> <p>Additionally, we updated our calculation methodologies for the following metrics on a prospective basis, beginning fiscal 2024:</p> <ul style="list-style-type: none"> <li>• For Scope 3 Category 4 - Upstream Transportation and Distribution, we included additional transportation data.</li> <li>• For fuel usage, we included additional sources, primarily mobile combustion, increasing total energy by 3%.</li> <li>• For fugitive emissions, we estimated refrigerants for all equipment using equipment type and capacity, increasing Scope 1 emissions by 1%.</li> <li>• For post-consumer recycled content by packaging type, we have moved from industry averages to actual data for aluminum, corrugate, glass, and steel.</li> </ul>
2-5	External Assurance	We completed third-party limited assurance consistent with guidance provided by ISO 14064-3 of our FY2024 Scope 1 and Scope 2 GHG emissions. We also completed limited assurance of our water withdrawal, water discharge, and waste by disposal method for FY2024. All assurance statements can be found here: <a href="#">GHG Emissions, Water, and Waste Assurance Letter</a> .

2-26	Mechanisms for Seeking Advice and Raising Concerns	<a href="#">Code of Business Conduct and Ethics</a> ; Anyone inside or outside of Campbell's who has a concern may call the Integrity Hotline at 800-210-2173.
2-27	Compliance with Laws and Regulations	<p>There were no significant incidents of non-compliance with laws and regulations that resulted in administrative or judicial sanctions and fines during the reporting period. On March 20, 2024, the United States Department of Justice (DOJ), on behalf of the U.S. Environmental Protection Agency, and National Education Law Center, on behalf of Environment America and Lake Erie Waterkeeper, filed lawsuits in the United States District Court for the Northern District of Ohio Western Division concerning alleged violations of the Clean Water Act relating to alleged contaminant discharges from our Napoleon, Ohio wastewater treatment facility in excess of the facility's Clean Water Act permit limits. We have and are continuing to take actions to remediate the exceedances and are in settlement discussions with the DOJ and the private environmental groups.</p> <p>Environmental Compliance: Campbell's manages environmental compliance through the use of an electronic system, the Campbell's Environmental Management and Metrics System (CEMMS). The CEMMS system is used at all of our facilities and is the backbone of our overall compliance monitoring. The CEMMS system proactively addresses our document management, permit tracking, tasks and calendar management, incident and inspection notifications, and PSM/RMP documentation control. While this system is auditable and supports ISO 14001, our compliance monitoring is not ISO 14001 certified, and we currently do not have any facilities that are ISO 14001 or OHSAS 18001 certified. Campbell's environmental group uses CEMMS data to provide a monthly report to Supply Chain leadership for the purpose of identifying environmental compliance status and open issues throughout owned manufacturing and distribution centers.</p>
2-28	Membership Associations	We disclose any political spending with trade association and related memberships with annual dues exceeding \$10,000 in our Political Accountability Guidelines available on our <a href="#">investor website</a> .
2-29	Approach to Stakeholder Engagement	<a href="#">Stakeholder Engagement</a>

<b>Anti-corruption</b>		
3-3	Management of Material Topics	<a href="#">Business Ethics; Code of Business Conduct and Ethics</a>
205-1	Operations Assessed for Risks Related to Corruption	Campbell's Legal Department regularly assesses corruption risk across the company and reports to the Audit Committee of the Board on that risk and on other legal and regulatory exposures. This assessment addresses the risks faced by the company in the geographies in which it does business. In addition, an annual Conflicts of Interest Questionnaire and Certification is completed by mid- and upper-level management and reviewed by the Legal Department. These assessments and evaluations have not identified significant risks related to corruption.
205-2	Communication and Training About Anti-Corruption Policies and Procedures	Each year, Campbell's provides online and live training for employees on core ethics and compliance issues and risk-based training tailored to the issues associated with employees' specific job responsibilities. As part of the Winning with Integrity program, full-time salaried employees are required to complete annual training on our <a href="#">Code of Business Conduct and Ethics</a> and biennial training on anti-bribery and corruption. Hourly employees are also provided Code training. All employees receive regular messaging about Campbell's <a href="#">Integrity Hotline</a> , and all employees have access to the Code and Campbell's Anti-Bribery Policy.
205-3	Confirmed Incidents of Corruption and Actions Taken	There have been no confirmed incidents of corruption.

<b>Supplier environmental assessment</b>		
3-3	Management of Material Topics	<a href="#">Responsible Sourcing</a>

Disclosure	Disclosure Title	FY2024 Response
308-1	New Suppliers that were Screened Using Environmental Criteria	Our Responsible Sourcing Supplier Code is available to all suppliers and sets forth the environmental standards we expect. Suppliers may be asked to complete or produce results of a social and environmental compliance self assessment or audit, consistent with Sedex Members Ethical Trade Audit (SMETA), a social and environmental auditing framework, or a similarly recognized authority. We also include environmental questions in new supplier Requests for Proposal (RFPs).
308-2	Negative Environmental Impacts in the Supply Chain and Actions Taken	Campbell's links with suppliers on Sedex to assess for social and environmental impacts. If a significant environmental non-compliance is identified through a SMETA audit, Campbell's expects suppliers to address the non-compliance, either through imminent action, corrective action plan, and/or follow up audit.
<b>Employment</b>		
3-3	Management of Material Topics	<a href="#">Our People</a>
401-1	New Employee Hires and Employee Turnover	<a href="#">Employment information</a>
401-2	Benefits Provided to Full-Time Employees that are Not Provided to Temporary or Part-Time Employees	While employee benefits may vary at locations, Campbell's offers a robust employee benefits package that may include paid sick days, paid vacation, bereavement leave, education benefits including tuition reimbursement \$803K in F2024, relocation assistance, health insurance (individual and family), dental insurance (individual and family), vision insurance, domestic partner benefits, life insurance, disability insurance (including long-term), flexible spending accounts (health care and child care), stock options, bonus plans, 401(k) savings plans, an onsite daycare center (HQ), onsite fitness center (HQ), 10-week paid parental leave, adoption and surrogacy assistance, and retiree health care. Campbell's also offers corporate benefits to both same- and opposite-sex couples and has a workplace flexibility policy.
401-3	Parental Leave	Campbell's policy provides 10 weeks of fully paid leave to primary caregivers and two weeks of fully-paid leave to non-primary caregivers following the birth or adoption of a child. Outside the U.S., we ensure that practices regarding parental leave are competitive with food companies in those respective markets.
<b>Labor/management relations</b>		
3-3	Management of Material Topics	<a href="#">Our People</a>
402-1	Minimum Notice Periods Regarding Operational Changes	Notice periods, if any, may vary by contract and/or legislation and/or local regulation. We always comply with local regulations and have had no actions brought against the company for violation of notice periods.
<b>Occupational health and safety</b>

403-3	Occupational Health Services	<a href="#">Our People</a>
403-4	Worker Participation, Consultation, and Communication on Occupational Health and Safety	100% of Campbell's supply chain workforce is represented in formal joint management-worker health and safety committees that help monitor and advise on occupational health and safety programs. All of our manufacturing locations have some form of health and safety committee with representation from all employee levels.
403-5	Worker Training on Occupational Health and Safety	Campbell's conducts health and safety trainings in line with our health and safety training standard, which applies to all employees and contractors. Our health and safety standard includes a health and safety orientation, extensive health and safety trainings, and recordkeeping of trainings. Campbell's has a dedicated Learning Management System for all health and safety trainings and trainings are both computer-led and instructor-led. Training frequency varies by training topic, with some conducted annually, like confined spaces, conveyor safety, ergonomics, fall protection, and lockout tagout. Site safety Leaders and Safety System Owners are responsible for ensuring affected employees and site visitors are trained and qualified to perform their jobs by ensuring all relevant health and safety training is completed as required.
403-6	Promotion of Worker Health	<a href="#">Our People</a>
403-7	Prevention and Mitigation of Occupational Health and Safety Impacts Directly Linked by Business Relationships	<a href="#">Our People</a>
403-8	Workers Covered by an Occupational Health and Safety Management System	All employees are covered by our health and safety management system.

<b>Customer health and safety</b>		
3-3	Management of Material Topics	<u><a href="#">Our food</a></u>
416-1	Assessment of the Health and Safety Impacts of Product and Service Categories	<u><a href="#">Responsible Pest Management</a></u> Campbell's engages in pesticide monitoring, including the selection of certain incoming ingredients and suppliers for sampling using a risk-based approach using internal and external data sources on likely residue risk to set sampling frequency. Such testing is conducted in our internal chemical residue testing laboratory. In tomato ingredients, Campbell's number one ingredient type for our legacy brands, we have over a decade of requiring farmer compliance with Campbell's pesticide requirements, which are stricter than U.S. Environmental Protection Agency (EPA) and California EPA standards. Farmer pesticide application reports are monitored, and tomato farmers out of compliance with these requirements cannot harvest their fields for Campbell's.
416-2	Incidents of Non-Compliance Concerning the Health and Safety Impacts of Products and Services	In FY2024, Campbell's had no Class I or Class II recalls. At USDA's request, we assisted in the execution of BrucePac's October 9, 2024 recall. 62,385 pounds of our product was involved in the BrucePac recall.
<b>Marketing and labeling</b>		
3-3	Management of Material Topics	<u><a href="#">Materiality</a></u>
417-1	Requirements for Product and Service Information and Labeling	We ensure that 100% of our products provide nutrition information on packaging globally. Our multidisciplinary team of experts follows a rigorous multi-step review process to ensure any claims we make for our products are truthful and not misleading to consumers. In addition to an extensive internal review process, regulatory agencies enforce compliance in our operating markets. At a minimum, we label for energy (calories), total fat, saturated fat, sodium, total carbohydrates, and protein in 100% of our key markets. Most products also include a percentage of recommended daily intakes for nutrients per serving in line with local regulations. We participate in front-of-pack labeling systems mandated by regulations in applicable regions (ex. Central America, Israel). We are implementing front-of-pack labeling to meet the effective date of Canada's new requirements. For consumers who want more information about our food, beyond what we can fit on product packaging, additional information about ingredients, nutrition, and claims is available online on individual brand websites.
417-2	Incidents of Non-Compliance Concerning Product and Service Information and Labeling	There were no significant incidents of non-compliance concerning product and service information and labeling in FY2024.
417-3	Incidents of Non-Compliance Concerning Marketing Communications	There were no significant incidents of non-compliance concerning marketing communications in FY2024.

# Climate Risk Disclosure

Disclosure	Campbell's Response
<p><b>Governance</b></p> <p>a) Describe the board's oversight of climate related risks and opportunities</p>	<p><b><u>2024 CDP Disclosures; Governance</u></b></p> <p>Oversight of climate-related Environmental, Social, and Governance (ESG) activities is managed by the Governance Committee of the Board of Directors and is reflected in the Committee's Charter. The Committee takes an active role in the continued evolution of Campbell's climate-related ESG strategy. The Committee receives full scorecards for climate-related ESG performance, including emissions. This past year, the Board was engaged on topics including our Science Based Target, stakeholder engagement on climate topics, overall climate-related ESG strategy, and future plans for key elements of that strategy. The Chief Sustainability Officer formally presents climate-related issues to the Governance Committee at least twice per year. These updates include company climate-related ESG performance, risks, and opportunities, and future plans. Climate-related issues may also be presented to the Board and Audit Committee once per year by the Enterprise Risk Management team. The full Board receives updates on climate-related ESG topics periodically. All new public climate-related ESG-related commitments are reviewed by the Governance Committee.</p>
<p>b) Describe management's role in assessing and managing climate-related risks and opportunities</p>	<p><b><u>2024 CDP Disclosures; Governance</u></b></p> <p>The highest management-level position with responsibility for climate-related issues is the EVP, Chief Enterprise Transformation Officer, who reports directly to our CEO, is a member of our Operating Committee and Sustainability Steering Committee, and manages business continuity and supply chain resiliency. Our CR&amp;S team, which supports our climate-related ESG strategy and is led by our Chief Sustainability Officer, reports to our EVP, Chief Transformation Officer. Other leaders from across the business are also engaged. Our Head of Supply Chain oversees emissions reductions efforts in our manufacturing operations and supply chain. Our SVPs of R&amp;D oversee sustainable product innovation opportunities and packaging sustainability initiatives. Our Chief Marketing Officers assess changes in consumer perceptions around climate-related ESG-related topics. Our SVP of Corporate Audit, who leads Campbell's Enterprise Risk Management process, co-leads Campbell's climate risk and opportunity screening assessments in conjunction with the CR&amp;S team. All new public ESG-related commitments are reviewed by the Campbell's Operating Committee before moving to the Governance Committee for review.</p>
<p><b>Strategy</b></p> <p>a) Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term</p>	<p><b><u>2024 CDP Disclosures</u></b></p> <p>We have identified both physical and transition risks related to climate change. These risks include threats to the availability of agricultural commodities and the productivity of Campbell facilities and assets from intensified heat and drought cycles, flooding, extreme weather events and storm damage, wildfires, and grid reliability. Other risks pertain to current and future regulations, reputation and increased stakeholder concern, and the increased cost of raw materials. We have also identified opportunities in our operations and our supply chain, including resource efficiency in our direct operations and shifts in consumer preferences. In the past three years, we have conducted climate risk and opportunity screening assessments and scenario analyses related to our direct operations and supply chain. We intend to update our assessment in the next fiscal year.</p>
<p>b) Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning</p>	<p><b><u>2024 CDP Disclosures; Climate change and energy</u></b></p> <p>We have identified renewable energy and energy efficiency as opportunities to achieve our GHG emissions reductions and navigate energy transitions. We have completed several and we are working currently to implement onsite renewable projects. In FY2023 we signed an offsite renewable energy contract, which was active for the full FY2024. We continue to do energy efficiency studies and work in our operations. Risks and opportunities related to the growing demand from consumers and other stakeholders for sustainable products have influenced our approach to packaging and 2030 goal to transition 100% of packaging to recyclable or industrially compostable designs and materials. We continue to engage with agriculture producers in our supply chain to improve agricultural sustainability and resilience.</p>

Disclosure		Campbell's Response
Strategy	c) Describe the resilience of the organization's strategy, taking into consideration different future climate scenarios, including a 2°C or lower scenario	<p><b><u>2024 CDP Disclosures; Climate change and energy</u></b></p> <p>Our climate scenario analyses indicate some potential future risks to certain manufacturing and sourcing locations due to increased drought months and precipitation events. Currently, we believe our efforts to manage resource use in our facilities, engage with growers on sustainable agriculture practices, maintain a diversified supply chain, and develop contingency and risk management plans address these risks. We will continue to assess risks, integrate climate into our Enterprise Risk Management process, and focus on emissions reduction and supply chain resiliency overall.</p>
	a) Describe the organization's processes for identifying and assessing climate-related risks	<p><b><u>2024 CDP Disclosures; Enterprise Risk Management; Environmental Sustainability Policy</u></b></p> <p>Campbell has a formal Enterprise Risk Management (ERM) process. This process and its results are reviewed with the Audit Committee of the Board of Directors annually. The process includes input from across the company, secured through surveying a broad set of Campbell employees and leaders, including representatives from government and regulatory affairs, sustainability, engineering, R&amp;D and procurement. Key risk categories are analyzed, and the results are used to develop an enterprise key-risk portfolio. Risk categories are revisited annually to determine the drivers and level of management required for each risk. Climate and ESG risk factors are fully integrated into the ERM process. Inputs from Campbell's stakeholder materiality, water, and climate risk assessments are also considered in the ERM process. The enterprise risk profile and related action plans for the most critical risks are reviewed with the Board of Directors annually, with periodic updates as needed.</p>
	b) Describe the organization's processes for managing climate-related risks	<p><b><u>2024 CDP Disclosures; Enterprise Risk Management; Environmental Sustainability Policy</u></b></p> <p>For top risks identified in the ERM process, we develop response plans and regularly monitor progress. Processes for managing climate-related risks exist across different functions at Campbell. To date, teams that have been critical to this process include Supply Chain, Manufacturing, Procurement, Corporate Responsibility &amp; Sustainability, Agriculture Operations, and Audit. Processes around business continuity planning, supply continuity planning, decarbonization, sustainable agriculture, and enterprise risk management result in identifying owners and developing strategies to manage risk, some of which are related to climate change. In recent years, we have integrated more robust environmental and social risk factors into supply risk assessment processes; developed training for buyers and suppliers on environmental and social risks; developed a science-based emissions target and initial emission-reduction roadmaps; completed a water risk assessment.</p>
Risk Management	c) Describe how processes for identifying, assessing and managing climate-related risks are integrated into the organization's overall risk management	<p><b><u>2024 CDP Disclosures; Enterprise Risk Management; Environmental Sustainability Policy</u></b></p> <p>See above</p>
	a) Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process	<p><b><u>ESG Goals; Data Table</u></b></p> <p>Campbell discloses a variety of environmental metrics in our Corporate Responsibility Report and in our CDP disclosures. Metrics include greenhouse gas emissions; energy use, renewable energy generated; sustainable sourcing; waste generation, including food waste; packaging recyclability; post-consumer recycled content in packaging; among others.</p>
	b) Disclose Scope 1, Scope 2 and, if appropriate, Scope 3 greenhouse gas emissions, and the related risks	<p><b><u>Data Table; Climate Change and Energy; 2024 CDP Disclosures; Environmental Sustainability Policy</u></b></p> <p>Please refer to our CR Report Data Table, to the above information, and to our CDP report.</p>
Metrics and Targets	c) Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets	<p><b><u>ESG Goals</u></b></p> <p>Campbell's commits to reduce absolute Scope 1 and 2 GHG emissions 42% by FY2030 from a FY2020 base year. We also commit to reduce absolute Scope 3 GHG emissions from purchased goods and services and upstream transportation and distribution 25% within the same time frame. Campbell's also has a sustainable agriculture goal to source 50% of each plant-based priority ingredient from suppliers engaged in an approved sustainable agriculture program by FY2025. Refer to <b><u>Campbell's AB1305 Information</u></b> for our disclosures under Section 44475.2 of Division 26 of the California Health and Safety Code ("AB 1305").</p>
